

we would like to congratulate you on your purchase and hope you enjoy the "table dance" lamp.

please comply with the assembly instructions.

1. mount your "table dance" lamp according to the separate assembly instructions.

2. guide the cable of the lamp through the upright stand pipe. the cable should be guided through the lower drill hole for the screw.

3. put the lamp into the end piece of the "table-dance".

4. insert the cable ends in the transformer into the connectors that are designated with 12 V. screw up the connectors. please do pay attention to fix the outer part of the metallcable with the already fixed transparent cable in one box and innerpart of the metallcable in unused box. please see the photo.

5. mount the traction relief by means of the two shorter screws. the thick ribs of the traction relief must point to the cable!

6. put the cover on the transformer. put the two longer screws on the backside into the holes provided for that purpose and screw them down.

7. test the lamp:

put in the plug.
the lamp is off.

touch the lamp for a short time at the carbon rod:
the lamp is turned on.

touch the lamp over a longer term:
the lamp is dimmed continuously.

touch the lamp for a short time again:
the lamp is turned off.
